

GLOBAL FEDERAL CREDIT UNION ESIGN DISCLOSURES AND CONSENT

You are legally entitled to certain disclosures and information in writing about the products, services, or accounts and any related notices, disclosures, and records ("Required Information") you may receive or access as part of your relationship with Global Federal Credit Union (also referred to as "us," "we" and "our" in this document). With your consent, we can deliver Required Information to you electronically. However, we may, in our sole discretion, provide you with any Required Information in writing, even if you have consented to receive it electronically. Your consent to electronic delivery of Required Information also permits the general use of electronic records and electronic signatures.

Statement of electronic disclosures:

Your option to receive paper copies. If we provide Required Information to you electronically, and you want a paper copy, you may call us or visit any branch and request a paper version. You may be subject to a fee for your request, depending on the type of document, unless prohibited by law.

Your consent covers the transaction included with this Disclosure and Consent. Your consent covers only the transaction included with the Consent and Disclosure and remains in effect until you withdraw your consent.

You may withdraw your consent at any time. You have the right to withdraw your consent at any time and at no cost to you. If you wish to withdraw your consent, you must call us or visit any branch and speak with a member service representative.

Hardware and software you will need. To receive Required Information electronically, you must:

- Be able to access the internet;
- Have an active email account; and
- Have access to a computer and an operating system capable of supporting all of the above.

You will also need a printer if you wish to print out and retain records on paper, and electronic storage if you wish to retain records in electronic form.

Future changes to hardware or software requirements. If we need to make a change in hardware or software used to access or retain Electronic Records, and that change would create a material risk that you would not be able to access or retain your Electronic Records, we will give you notice of the revised hardware or software requirements. If we make a material change to the hardware or software you may withdraw your consent at no cost to you.
